

## Multifan Stage Fan

The Stage Fan was especially developed for concert stages, music festivals or sport arenas. This stackable stagefan is easy to transport, has a low noise level and low energy consumption. An integrated 3 step control offers a full range of adjustable air capacity. Because of its black colour it is not too obvious on stages. The Multifan Stage Fan is available in 40 and 50 cm diameter.

### Features:

- Solid housing, made of long lasting synthetic material
- Motor is equipped with an integrated internal protection
- Double wireguard included for high safety
- Different blowing directions possible
- 3 step controller is optional

### Advantages:

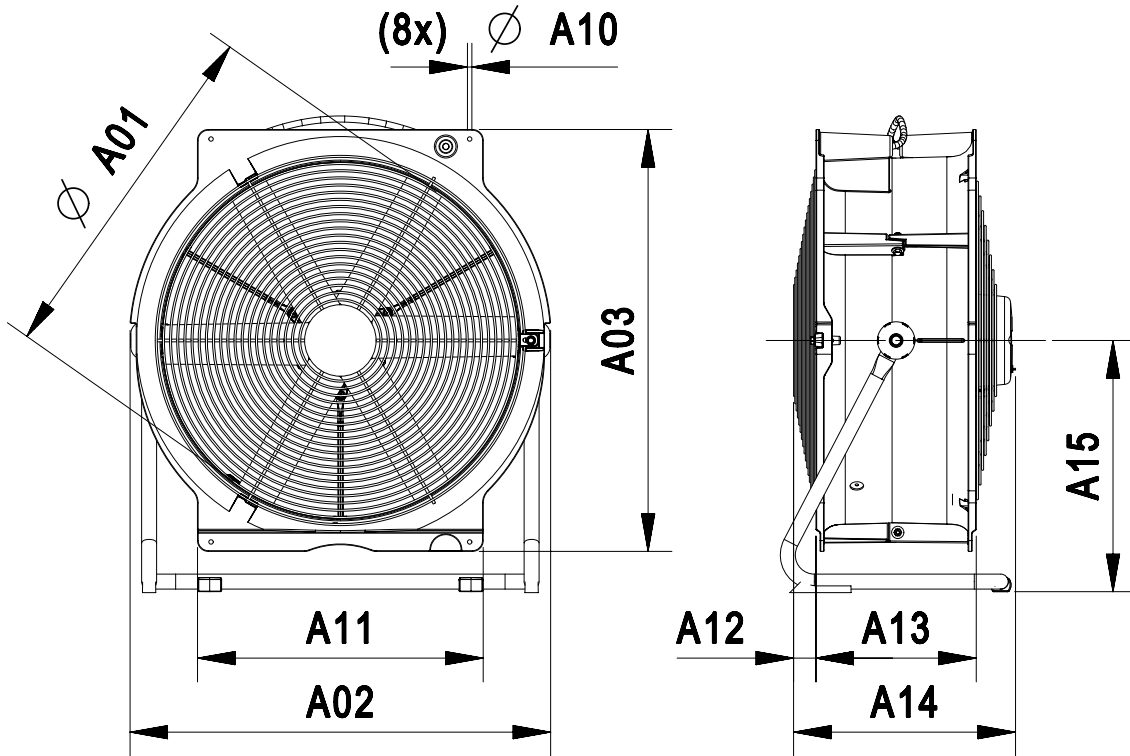

- Powerful and reliable fans
- Well-suited for outdoor use
- Low noise level
- Low energy consumption
- Easy to transport and stackable
