# Mf-Net modular system

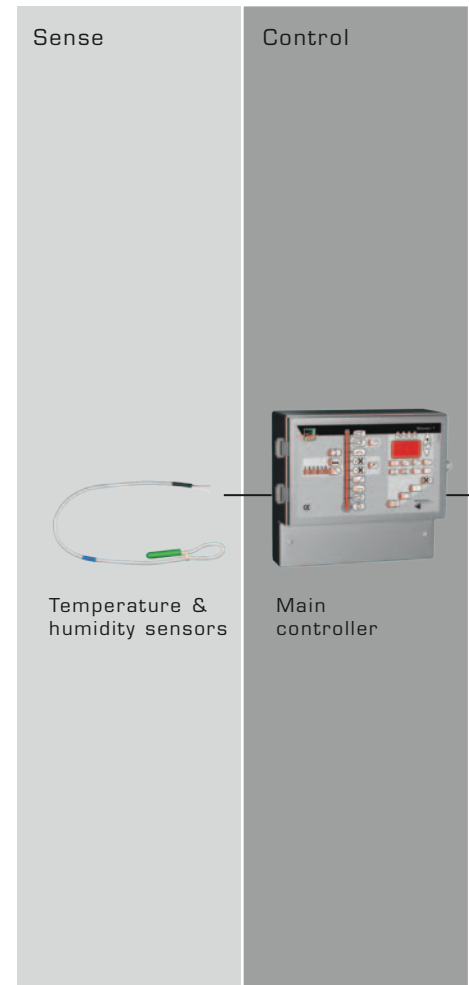

# Mf-Net possible solutions

Solution: Endurance

Solution: Endurance & Econ

## Building bricks

- Thermostats
- Triac controllers
- Transformers
- Frequency controllers
- Alarm

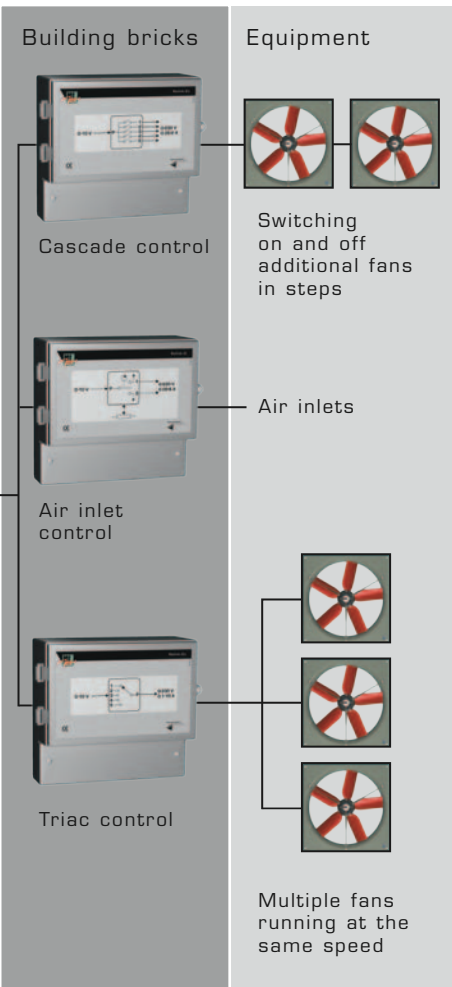

## Equipment

- Fans
- Heaters
- Coolers
- Inlets
- Lighting
- Alarm

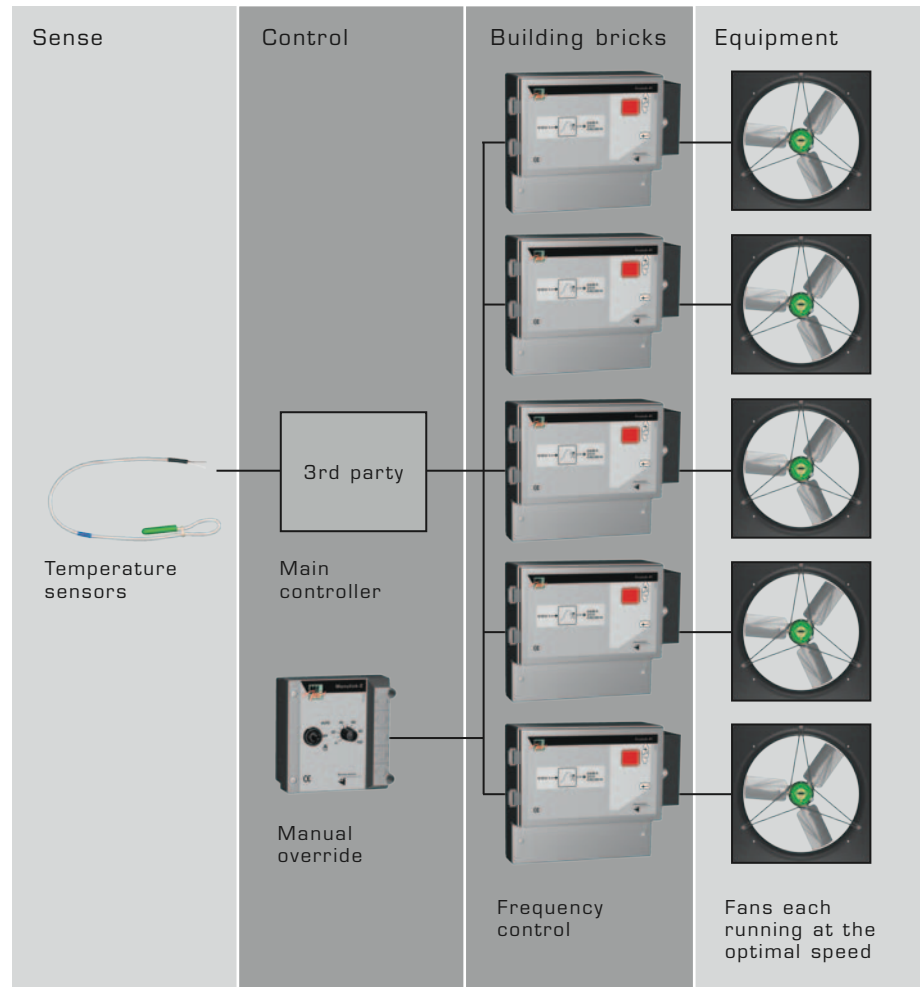

To choose the right combination of **Mf-Net modules** various criteria and specifications can be used. **Mf-Net** offers the following alternative drivers, which can be mixed at free choice:

- Economy:** simple operation, low investment
- Endurance:** robust, durable
- Energy:** energy saving, speed control
- Safety:** reliable alarms

## Economy

## Solution: Energy

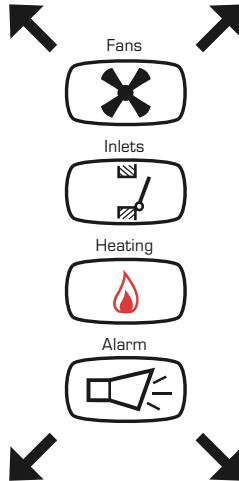

# Mf-Net applications

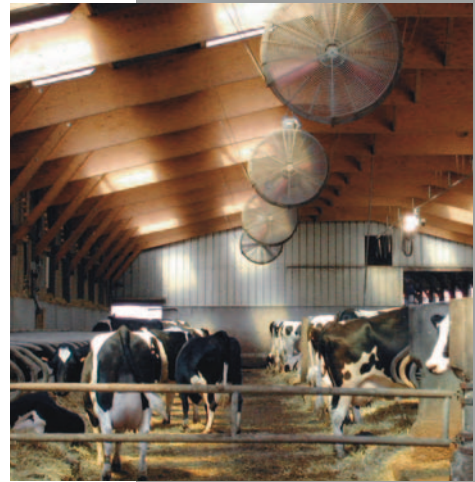

Reliable and durable performance

Running at the same speed for a uniform climate

Energy savings at variable speed

Flexibility for various applications
